Purpose

The Blue Cross and Blue Shield of Louisiana Foundation is committed to improving the health and wellbeing of Louisianans with a specific emphasis on kids of high need and community level efforts to improve wellness and wellbeing. In times of disaster and crisis, we recognize the importance of front-line organizations who meet immediate needs and help communities and families recover.

The Foundation does not normally offer general operating support through its grant programs. However, we know that disaster and crisis response calls for more flexibility to meet community needs. We are interested in both immediate needs (food security, housing, etc.) and medium-term needs (family economic recovery) being addressed for those in need across the state of Louisiana as these directly tie to the health, wellness and wellbeing of communities in the short and long term.

The ideal proposal will also help us clearly understand what you are doing to mitigate community concerns and how you will define success.

Selection and Awards

Online via our website at www.bcbslafoundation.org. Competitive organizations and proposals may be asked to submit additional details to aid in consideration.

Funding is limited; we cannot fund every effort even if it meets our criteria for success.

The maximum amount awarded per grant will be \$50,000 and funding for grants is at the sole discretion of our Board of Directors.

The ideal Community Crisis & Disaster Response Grant outlines how the organization is:

- Serving a clearly defined need within the community that was caused or exacerbated by the current crisis and/ or will be doing so in the coming days and weeks
- Properly staffed with capacity to complete the proposed effort safely and efficiently
- Able to measure and communicate immediate services delivered and the impact of these services over time
