Everyone in Louisiana deserves to lead a full, happy life.

Health is more than the absence of illness—it's the whole story of well-being for our minds, bodies, and communities. That's why we built this State Health Assessment (SHA) dashboard. By assessing the current status of health across the state, we can work together to create plans that improve well-being at every scale.

No matter who or where we are, the situations we're in throughout life all shape our health. What we can afford, how safe our neighborhoods are, and how easy or difficult it is to get medical care all affect the opportunities we have to make healthy choices. This dashboard explains how health in Louisiana requires a solid

Creating an Equitable and Healthier Louisiana Together

Every Louisianan deserves the opportunity to live a long and healthy life free from preventable disease, disability and injury. Health encompasses more than just access to health care services. It includes the conditions in the environment where people are born, live, learn, work, play, worship and age. Our state is home to many different communities, but one thing we all share is a desire to live full, healthy lives.

As we continue to carefully study our state's health, through our [State Health](#)

Benefits of a dashboard:

- Holds LDH and implementation partners accountable to the public
- Tracks progress towards goals using performance metrics and key indicators
- Ability to perform constant quality improvement checks
- Allows us to make updates in real time
- Ensures a starting point for the next improvement cycle

Objective B: Increase Number of Peer Support Specialists

Mental Health Provider Ratio by Parish

Current Workgroup Meetings

- **Purpose:** Identifying key partnerships and strategies
- **Focus:** Addressing goals and objectives of the State Health Improvement Plan (SHIP)
- **Activity:** Engage with identified organizations, government agencies, schools, etc.
 - Discuss their strategies and identify ways to support their activities.
 - Raise awareness and enhance efforts to improve the health of Louisiana citizens.

Partnerships and more

- Visit www.Louisinasha.com and www.Louisianaship.com for more in-depth information on our State Health Assessment and State Health Improvement Plan.
- Get involved: visit our “Take Action” page on www.Louisianaship.com.
- If you would like to view a list of our partners, please visit www.Louisianaship.com and click on the “Our Partners” page.

What can be True by 2028

- **Improved Health Outcomes**
 - Louisiana can stop fighting for the bottom of the Health Rankings
- **Reduced Health Disparities**
- **Increased Community Engagement**
- **Strengthened Health Systems**
- **Sustainable Improvements in Behavioral Health**
- **Sustained Economic Benefits**

Call to Action

- **Collaborate:** Invest in building partnerships.
- **Share resources:** Contribute tools, data, and funding to support programs and initiatives in your region.
- **Engage:** Actively participate in local initiatives and activities in your community.
- **Take Action:** Encourage your community to prioritize health, wellness, and prevention through daily practices and long-term goals.
