

THE DREAM MANAGER PROGRAM OVERVIEW

The Dream Manager Program is one of the most unique and holistic benefits you can provide your employees!

The Dream Manager Program (“The Program”) is the ultimate life-coaching program developed and implemented by Floyd Consulting. The Program is based on the concept that unfolded in *The Dream Manager* story and is complemented by personal strategic planning practices. Together, these areas provide a comprehensive approach for people to achieve their dreams and develop a personal strategic plan for their life. Key concepts from another Matthew Kelly book, *The Rhythm of Life*, help to provide a holistic approach to each session so that participants can move toward greater life satisfaction and discovering the-best-version-of-themselves®.

As participants are challenged to develop a life-changing personal strategic plan, The Program experience provides regular accountability, thought-provoking content, and encouragement to follow-through with the plans they develop. Trained and Certified Dream Managers guide the process and lead participants through The Program experience.

A participant meets individually with their Dream Manager® once a month for 45-60 minutes, or small group sessions can be facilitated once a month for 90 minutes. During each of these sessions one module from The Dream Manager course is covered. Each session has unique material as well as common elements that provide continuity from one session to the next.

Each participant receives a Dream Manager Program workbook to take notes, write observations, complete exercises, and track progress from one session to the next. Take home activities allow participants to keep momentum going between coaching sessions with their Dream Manager and help them create positive habits. These take home exercises allow participants to integrate Program content into their life and apply what they have learned.

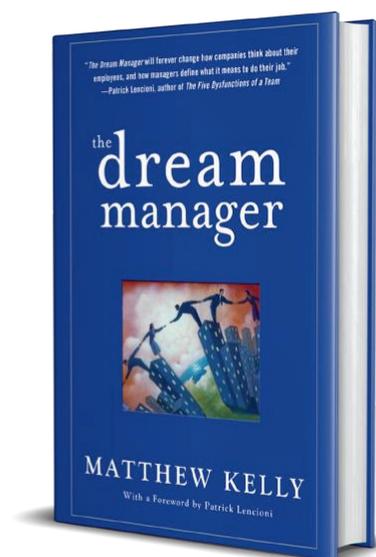

While the Dream Manager’s main responsibilities are to facilitate The Program, provide accountability, celebrate successes and offer feedback, it is the participant’s responsibility to engage with the content and apply it to their life to maximize impact and results.

How does The Dream Manager Program benefit companies?

- Creates dynamic relationships
- Improves morale
- Increases employee engagement
- Decreases unwanted turnover
- Develops management and leadership skills
- Teaches employees to think strategically about business challenges

How does The Dream Manager Program benefit individuals?

- Helps employees develop a personal strategic plan

- Develops life satisfaction and balance
- Improves health and wellness
- Provides extraordinary career pathing
- Increases engagement in life, work, and relationships
- Develops management and leadership skills
- Provides a vision for a bigger future

IT IS TIME TO START DREAMING AGAIN.

Your dreams have the power to shape your future. But do you know what your dreams are? Maybe you've lost sight of them, or you've stopped dreaming. Life has a way of pulling us in every direction, and we often get so focused on surviving that we forget to dream. When we stop dreaming, we begin to disengage from our work, our relationships, and ultimately, from the life we truly want.

It is time to change that.

Scan the code below for more information and to apply to be a part of our Louisiana Nonprofit Dream Manager Program. Together, let's make 2025 the year you rediscover your dreams and take bold steps toward making them a reality.

“Whether you are sixteen or sixty, the rest of your life is ahead of you. You cannot change one moment of your past, but you can change your whole future. Now is your time.”

The Rhythm of Life
